

ENLARGE UP TO 14X!

The fast and easy way to enlarge and trace art, patterns & designs

Artograph, the leading manufacturer of projectors since 1947, presents the Tracer, a quality projector at an unprecedented price. It requires no assembly. Simply place the projector on top of the design, pattern, or photograph, push the "on" button, and the image is projected and enlarged instantly with clarity and in full color for your drawing pleasure. Trace your way from patterns and design with enjoyment toward the fun of filling in with color and creativity.
