

Overview

The Premium Metallics Chips Book presents our most durable, luxurious Pantone metallic spot colors as sharable perforated chips. Premium Metallics are formulated to prevent tarnishing, leafing, blemishing, and loss of luster. Use this versatile format for adding color into mood boards or product sketches, attaching color to design files, and for approving color on press.

Format

- Single-volume, three-ring binder style desktop set
- Includes premium metallic spot colors as perforated, removable paper chips
- Each page provides seven Pantone colors with six individual 1.2" x 0.8" chips per color
- Printed on the most commonly used 100 lb coated paper stock weight

Color

- 300 high-luster, durable premium metallic spot colors made from special-effect inks
- Removable chip format has three-sided color bleed most ideal when evaluating color
- Each color created using a single base, shown with and without gloss aqueous coating
- Colors displayed with coordinating numbers
- Colors arranged in chromatic format with index at the back of guide indicating numeric location

Application

Use Case: palette, mood board, and concept building and for color specification, sharing and evaluation

- Easy to coat and print without fear of any loss in luster, tarnishing, leafing or blemishing
- Broadens and complements the traditional spot color palette (as found in Solid Chips)
- Replacement Chip Pages sold separately for when colors run out
