**Save money with every ribbon, either preloaded in a cartridge or as a refill roll.**

All ZeroNine Ribbons work in Edge® or Edge FX® printers. Reloading ZeroNine Ribbons into FX caddies saves you money because our ribbons cost less, and recycling O.E.M. parts save resources. For use in Edge printers, ZeroNine Ribbons snap into easily modified, used O.E.M. cartridges, saving you substantial money with every ribbon. Ribbons also are available preloaded in recycled cartridges, or in ZeroNine's Shuttle Cartridges with a count-down gauge and drop-in bays. All ZeroNine Ribbons are unconditionally guaranteed. Call your distributor and ask for ZeroNine Ribbons today!

IJO= Indoor Use Only, UFO=Use w/FrogSkin Outdoors. G= Close to a match with a Gerber color.  
Due to CMYK printing, swatches shown above are only simulations. See a genuine color chart for actual shade of color.
